NONUFORM

Nonuform is the place for products where technology and design go hand in hand – cutting edge products that combine design, function and respect for the environment. Working in aluminium allows us to combine delicate, minimalist design with strength and bearing capacity. The combination of 30 years' experience and new technology means that we can create new designs using an entirely Swedish concept.

Nonuform. Where new ideas take shape.

COMPRESSED SYSTEM

EXILIS We at Nonuform are very proud of our Exilis shelf, which won first prize in the 'AluminiumDesign' competition. Exilis is an example of minimalist Swedish design and is available in various colours. The shelf is a delicate aluminium profile, and designed to be able to bear substantial weight. The extruded profile is made in Sweden and is entirely recyclable. It boasts a sleek design, with the front edge of the shelf measuring a mere 2.5 mm.

General terms and conditions

APPLICABILITY

These general terms and conditions shall apply unless an alteration is agreed between the partners in writing. The partners are referred to in the following as the seller, ie Nonuform and the customer, ie the purchaser.

ORDERING INSTRUCTIONS

When you order, give the part or catalogue number in addition to stating quantity, and length if applicable. It also helps us to be sure of what product you want if you also give its name. If the order is in response to price information or a quotation given by us, please refer to this.

Modification of stock profiles or accessories must be specified by a separate part code, as given in a special price list.

Our price lists are normally updated once or twice a year. A new price list always supersedes all previous.

PRICES AND INSURANCE

Unless otherwise agreed, our sales-point for all goods is E.X.W. (ex works at the seller's plant). Transport and packing costs are additional, except for orders of 10pcs. or more.

The customer must insure the goods until full title has been passed on. All rights to insurance monies or other compensation that may arise due to damage to the goods before full title has been passed on to the customer shall be awarded to the seller.

Prices of products marked RAL are based on Nonuform's standard colours. If you are uncertain, ask for a quotation.

Orders for goods in colours that are not RAL standard are charged extra for the colour materials and their procurement.

The prices of products that do not have a list price will be given on enquiry.

DELIVERY TERMS

The seller undertakes to make delivery on the day stated in the order acknowledgement. The seller reserves the right to choose a forwarding agent and method of delivery, unless otherwise agreed.

We stock products according to demand, ie, some are in limited quantity, which means they can be out of stock sometimes and this may cause longer than normal delivery time.

In the event of force majeure, war, industrial action, power cuts, traffic disturbance, poor performance by our suppliers, exceptional interruption of production or substantial cassation that is beyond our control, the seller reserves the right either to delay the delivery or suspend delivery of the goods.

PAYMENT TERMS

Unless otherwise agreed, payment is due 30 days net after date of invoice, after the goods have been despatched. If the customer does not pay when due, the seller has the right to interest on overdue payment until full payment has been made.

The official rate of interest on overdue payment is currently 24% annual and the actual rate payable may be agreed between the parties, but in any case will be not less than the official rate.

The customer is liable to pay all costs of debt collection, if applicable.

If the customer does to take delivery on the agreed date, demand for payment will still be issued as though delivery had been made as agreed.

RIGHTS OF PROPERTY

The seller retains the right of property of the goods sold until full payment for them has been made.

WARRANTY AND RETURN OF GOODS

The seller will replace any goods that are found to be defective, due to design, material or production, during a period of six months after the date of delivery.

The customer must notify the seller, in writing within eight days, of any defective goods. If the customer does not do so the right of replacement as stated above will be forfeited. In excess of the above stated the seller has no other responsibility for defects or for failure to replace defective goods. The seller is thus not liable to make compensation to the customer for loss of production, lost profits or any other consequential loss.

NOTIFICATION

If notification regarding this purchase agreement has been sent by the seller to the customer by registered post to the most recent address known to the seller, the notification will be regarded as having been received by the addressee at latest three days after despatch. If notification is sent by fax or e-mail it will be regarded as having come to the attention of the addressee at the latest 24 hours after despatch.

ASSIGNMENT OF THE SELLER'S RIGHTS

The seller has the prerogative to partly or wholly assign their rights in accordance with this purchase agreement.

APPLICABLE LAW

Swedish law shall govern this agreement.

ARBITRATION

Disputes on this agreement and how it is interpreted will not be taken to court of law for judgement but will be decided by an arbitrator in accordance with the laws of the seller's country of which the code of judicial proceeding's voting regulations shall apply. However, the seller may at any time and without regard to these terms request enforcement assistance by a civil court or an enforcement authority to recover the goods.
